CAREER AND TECHNICAL EDUCATION (CTE) COURSES

CTE AND LINKED LEARNING

- CTE courses, programs, and training focus on the technical and academic skills needed to attain and maintain high-skill, high-demand careers.
 - CTE courses also offer a wide range of additional educational benefits, including critical thinking development, technical literacy, public speaking skills, leadership development, and planning/organization skills.
 - Qualifying courses and course instructors also offer college credit, industry certification, and internships for students.
- Linked Learning Pathways are offered for students in grades 9-12. They provide technical courses integrated with rigorous academics, and combine career-based learning and real-world experiences to make daily learning relevant.
 - Students have four years of progressive study in a pathway.
 - The pathways are CTE based and are part of the district's effort to have all student's be college and career ready.
