Fresno Unified Board Policy (BP) 0415
Diversity, Equity and Inclusion

The Governing Board believes that the diversity that exists among the district's community of students, staff, parents/guardians, and community members are an integral asset to the district’s vision, mission, and goals. Addressing the needs of all learners requires recognition of the history of injustice to diverse groups and the inherent value of diversity and acknowledgement that educational excellence requires a commitment to equity in the opportunities provided to all students and in the outcomes resulting from those opportunities.

In order to address and remedy the adverse impacts resulting from institutional bias of all kinds, including implicit or unintentional biases and prejudices that affect student achievement, and to eliminate disparities in educational outcomes for students from historically underserved, disempowered and underrepresented populations, the district shall proactively identify class and cultural biases as well as practices, policies, and institutional barriers that negatively influence student learning, perpetuate achievement gaps, impede equal access to opportunities for all students.

The Board establishes this policy to ensure all students from cradle to career, regardless of disability/special education status, ethnicity, gender, gender expression, gender identity, immigration status, language, nationality, parental status, race, religion, sexual orientation, socioeconomic status or association with a person or group with one or more of these actual or perceived characteristics, will have access to equitable resources and opportunities to participate fully in the educational process. To ensure that equity is the intentional result of district decisions, the Board shall consider whether its actions address the needs of all students by seeking to understand the role that power and privilege play in creating inequities and by taking action to effectively remediate the disparities that communities experience in the context of a history of continued exclusion, discrimination, and segregation. Board decisions shall not rely on biased or stereotypical assumptions about any particular group.
